

Revolutionizing Cable Drums

Weather Proof | Lower lifetime cost | Detachable & Stackable | Long Life

Wooden drum issues

What is Cabdum?

Introducing Cabdum. A detachable cable drum specially designed to last long & reduce your transportation costs.

It arrives in 3 pieces (2 side plates and 1 center cylinder) along with its attachments to reduce unladen transportation cost by as much as 80% . Just a quick screwing and it is ready to load your cable. The material is highly sturdy, weather proof and has a very long life.

Once the cable has been used, the Cabdum pieces can simply be disassembled and brought back to factory at very less transportation cost for reloading new cable. This REVOLUTIONARY practice can reduce your cable drum costs by many folds.

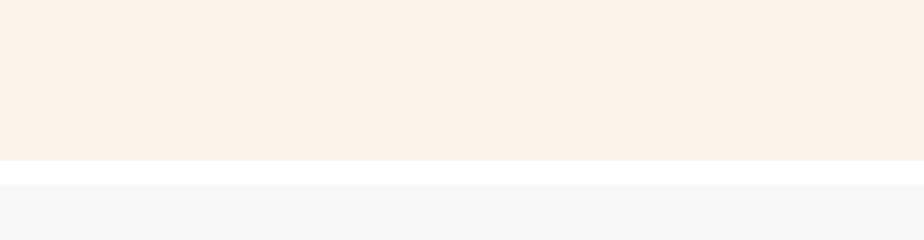

Making a better choice

Save up to 60% upfront cost by reusing the cable drums back at the factory
Save up to 80% in unladen transportation cost.

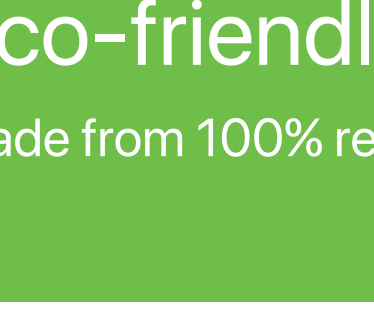

Single piece center cylinder

No joints | No pieces | No bulge
Only smooth & perfectly round surface
